PROFILE

Full-stack developer with 1+ year of hands-on experience building web applications, REST APIs, admin panels and integrations. Project work spans healthcare, multi-vendor commerce, furniture e-commerce and AI-assisted automation, with a focus on practical features and clear data flows.

TECHNICAL SKILLS

Frontend	React, Next.js, Vue.js, JavaScript, TypeScript, HTML, CSS
Backend	Node.js, Express.js, REST APIs, Mongoose, authentication, webhooks
Data & realtime	MongoDB, Redis, Socket.io, AWS S3
Integrations & automation	Google APIs, Meta APIs, Gemini, Ollama, n8n

SELECTED PROJECTS

FIVLIA | MERN STACK DEVELOPER

Developed backend APIs supporting customer, seller and admin experiences. Worked across catalogue, stock, pricing, seller operations, orders and delivery/driver workflows, including selected Redis caching and Socket.io updates.

SAMPARPAN HOSPITAL | FULL-STACK DEVELOPMENT

Built a public hospital website and admin panel for doctors, services, appointment requests and page content. Added admin-managed theme colours and worked on website analytics and Meta-related integrations.

JPME | FURNITURE E-COMMERCE

Built a sofa and furniture storefront with collection browsing and product enquiries. Connected catalogue content, banners, gallery assets and theme colours to admin-managed updates.

AUTOMATION SYSTEMS | WORKFLOWS & INTEGRATIONS

Connected webhook triggers, external APIs, Gemini or local Ollama text generation, and communication steps for AI-assisted review replies and business messaging workflows.
